1060*470*940MM (Armrest)

1. The Back of the massage chair is adjustable in the range of 120-170° and the seat is adjustable between 10-30°. Through angle adjustment of the back, seat and legs, a comfortable zero-gravity state can be realized.

2. The 3D flexible massager on the chair back is retractable back and forth up to 7cm, which can perform various actions, such as kneading, knocking, finger pressing, tapping, rolling, pushing, shiatsu and other over ten mixed massage functions on the neck, shoulders, back, waist.

The massage route up to 71cm gear and rack drive can provide a comprehensive care from the neck to the sacral vertebrae.

3. 3D finger pressing is characterized by vertical force, exerted on the neck, shoulders, back, waist and other parts.

4. The shoulder wrap-pressure massage is like palms pushing shoulders forcefully, providing a unique feeling of comfort.

The marks parts can be rotated in a certain angle, with air pressure massage.

5. Point of Anti-slip fabric in armrest inner parts. Please check follow picture.

6. The novel capsule-type air pressure massage armrests adopts an integrated embedded design, whereby the various combinations of 20 different sized airbags can perform kneading on hand, wrist, forearm, and upper arm.

7. Three groups(6pcs) roller in feet.
